

# CR4B23T6W

2" x 23.25" x 20.5" (H x W x D)

230V 4-burner cooktop in white ceramic Schott glass with digital touch controls and an extra large 8" dual cooking element

### Highlights:

24" width is ideally sized for many hard-to-fill cutouts

Smooth ceramic glass surface made with white Schott glass offers a modern look that's easy to clean

Intuitive touch controls for smarter cooking

### Product Features:

|                                |                                                                                                                                                      |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Schott glass surface           | Made in Germany, the white Schott glass offers easier cleanup and lasting durability                                                                 |
| Extra large 2200W burner       | Burner located on the rear right corner has an 8" diameter and powerful 2200W cooking power to handle large pots and help boil water with more speed |
| Large 1800W burner             | Burner located on the front left corner is 7" in diameter to handle larger cooking vessels                                                           |
| 2 Standard 1200W burners       | Front right and rear left burners are 5.5" in diameter to meet most cooking needs                                                                    |
| Dual cooking zone              | Rear right burner includes an inner 5" burner, allowing you to save energy when heating smaller cookware                                             |
| Digital touch controls         | Easy operation with a digital control panel and digital display                                                                                      |
| 9 power levels                 | Select and adjust your heating levels at the touch of a button                                                                                       |
| Timer                          | Allows you to program either burner to heat at a specified level for up to 99 minutes                                                                |
| Residual heat indicator lights | Each burner includes a residual heat indicator to warn users if the surface is still too hot to touch                                                |
