Under cabinet LED lighting	Range hood includes two bulbs for convenient illumination of the cooking zone
Auto cook	Cooking setting that lets you choose from pizza, potatoes, popcorn, beverages, cheese, ice cream, butter, meats, veggies, and reheat

The image contains two technical drawings of a control panel, labeled 'TOP VIEW' and 'FRONT VIEW'.

TOP VIEW: This drawing shows the panel's layout from above. It is a rectangle with overall dimensions of 38 3/4 inches in height and 17 inches in width. The panel features two 'ELEC. CORD' ports at the top, each with a 2-inch wide opening and a 4-inch wide base. The distance between the centers of these ports is 14 1/2 inches. A 'GLASS WINDOW' is located in the center, measuring 11 1/2 inches wide and 5 inches high. The panel has a 1/2-inch thick top edge and a 1/2-inch thick bottom edge. The distance from the top edge to the top of the glass window is 14 3/8 inches. The distance from the bottom of the glass window to the bottom edge is 14 1/2 inches. The distance from the left edge to the left side of the glass window is 4 1/16 inches. The distance from the right side of the glass window to the right edge is 3 1/4 inches. The distance from the top edge to the top of the panel is 1 1/2 inches. The distance from the bottom edge to the bottom of the panel is 1 1/2 inches. The distance from the left edge to the left side of the panel is 1 1/2 inches. The distance from the right edge to the right side of the panel is 1 1/2 inches. The distance from the top edge to the top of the panel is 1 1/2 inches. The distance from the bottom edge to the bottom of the panel is 1 1/2 inches. The distance from the left edge to the left side of the panel is 1 1/2 inches. The distance from the right edge to the right side of the panel is 1 1/2 inches.

FRONT VIEW: This drawing shows the panel's layout from the front. It is a rectangle with overall dimensions of 17 inches in height and 14 1/2 inches in width. The panel features a 'GLASS WINDOW' in the center, measuring 11 1/2 inches wide and 5 inches high. The panel has a 1/2-inch thick top edge and a 1/2-inch thick bottom edge. The distance from the top edge to the top of the glass window is 14 3/8 inches. The distance from the bottom of the glass window to the bottom edge is 14 1/2 inches. The distance from the left edge to the left side of the glass window is 4 1/16 inches. The distance from the right side of the glass window to the right edge is 3 1/4 inches. The distance from the top edge to the top of the panel is 1 1/2 inches. The distance from the bottom edge to the bottom of the panel is 1 1/2 inches. The distance from the left edge to the left side of the panel is 1 1/2 inches. The distance from the right edge to the right side of the panel is 1 1/2 inches. The distance from the top edge to the top of the panel is 1 1/2 inches. The distance from the bottom edge to the bottom of the panel is 1 1/2 inches. The distance from the left edge to the left side of the panel is 1 1/2 inches. The distance from the right edge to the right side of the panel is 1 1/2 inches.
