### Product Features:

|                             |                                                                                                                                     |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| 2-Burner Radiant Cooktop    | Smooth-top glass cooktop ideal for hotels, apartments, and other small kitchen spaces                                               |
| Safety First Cooktop series | Specially designed to ensure maximum guest safety with several protective features included                                         |
| 30 minute automatic shutoff | Burners will automatically turn off after 30 minutes of inactivity, helping to prevent unsupervised heating                         |
| Safety cut-off function     | If the cooktop on/off switch is touched but no power level is selected within one minute, the cooktop automatically turns off       |
| Overflow protection         | Power will automatically shut off if boiling liquid or a wet cloth touches the control panel, resuming after the controls are dried |
| Child lock                  | Safety feature lets you lock the cooktop to prevent unsupervised changes                                                            |
| Ceramic glass surface       | Easy cleanup and elegant style on a smooth ceramic glass surface in a jet black finish                                              |
| Large 1800W burner          | Rear 7" burner offers 1800W for faster heating of larger cooking vessels                                                            |
| Standard 1200W burner       | Front element is 5.5" in diameter to meet most cooking needs                                                                        |
