• CARE & CLEANING GUIDELINES:

Only use tempered safety glass, To prevent damage to the clamp finish
During Installtion, do not use power tools when installing these clamps.

For best result, keep the following recommendations in mind when caring
for you shower door hardware. Your shower door hardware should be dried
daily with a soft towel or cloth to insure its original finish.

Do not use harsh cleaners or chemicals on the hardware, as many of the
components are coated with a clear lacquer that will become damaged
beyond repair.

Always test your cleaning solution in an inconspicuous area prior to cleaning
the entire hardware surface.

Wipe surfaces clean using a soft dampened cloth or sponge and rinse completely
with warm water immediately after applying the cleaning solutions.

Use only smalll amout of liquid, gentle cleaner.

Never use abrasive products, sponges, or wire scrub brushes while cleaning
hardware.

• MAINTENANCE:

Hinges come factory greased for a silent, hassle-free experience.
If there is any noticeable squeaking that occurs after installation,
it is recommended to apply a few drops of (3 in 1) multi-purpose
oil to the hinge, at the nylon washer/pivot location. The lubricant
will penetrate the hinge crevices, reducing friction, cleaning grime,
and/or build up. Spray lubricants are prohibited. If, for some reason,
the hinge is disassembled during maintenance, use a small amount
of white lithium grease to lubricate the interior hinge components.
