

Edge Treatments

GENERAL SPECIFICATIONS

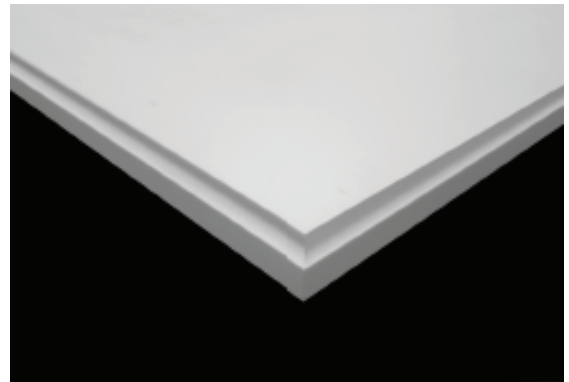

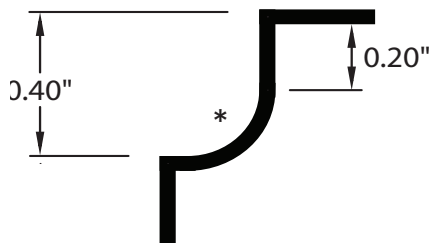

Material - SculptureStone®

Optional edge treatments for counter-sinks and counter tops provide a very tasteful detail, enabling them to further integrate with other design appointments in the bathroom.

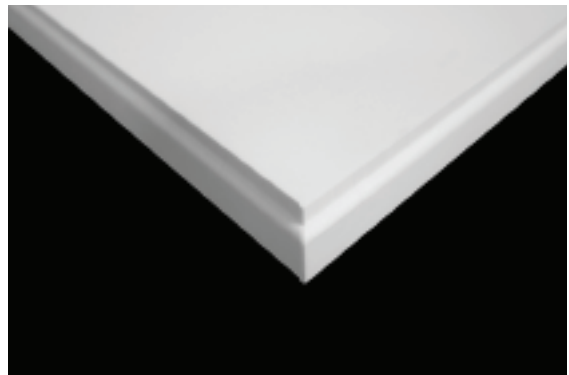

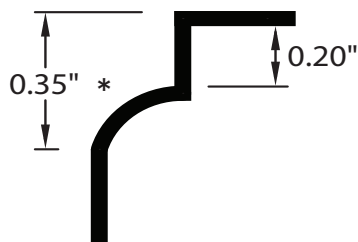

Specify your preferred edge treatment when when creating your custom product using [MTI's custom online configurator](#).

1" minimum counter thickness is required for edge treatments.

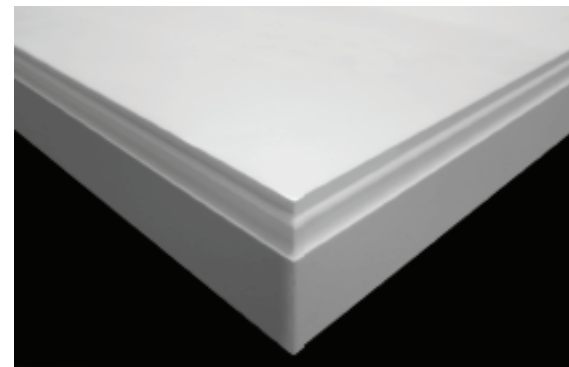

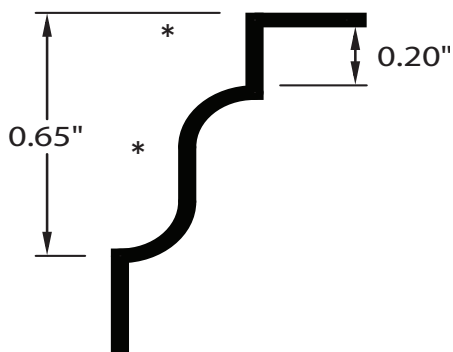

Cove Edge

Roundover Edge

Roman Ogee Edge

\*When counter-sink is ordered with a gloss finish, these routed portions of the edge treatment will remain matte.
