

Chromatherapy
Underwater LED Lighting

Chromatherapy Underwater LED Lighting

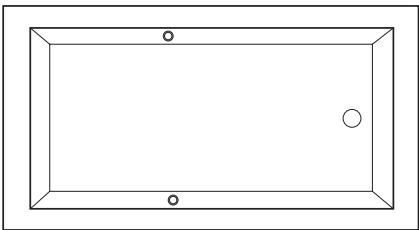

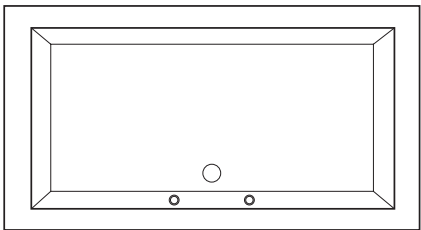

For centuries, light and color have been recognized as having an affect on human bio-rhythms and life equilibrium. The therapeutic use of different colors of light, or chromatherapy, has been determined to have a positive impact on overall health and well-being.

- 2 digitally controlled LEDs included. Up to 6 additional lights may be added (for a total of 8).
- Control pad allows selection of any of these individual colors:
 - aqua
 - blue
 - magenta
 - red
 - orange
 - green
 - yellow
- Aqua-Blue-Green mode gently transitions through the 3 colors.
- Rainbow mode cycles through all colors.

Chromatherapy with 2 LED light clusters (LE) \$880

Standard placement of LED lights shown below for center and end drain tubs. Actual locations of LED lights may vary slightly due to tub shape, hydrotherapy components and other options. A drawing must be submitted with order to specify alternate placement. MTI will factory-install LED lights as close as possible to specified location.

ELECTRICAL COMPONENTS & SPECIFICATIONS
Required Electrical Service
